

Incidental Fee Committee
Minutes

Meeting # 11
February 9, 2015 5:30pm
Location: Pacific Room

1. Call to Order

The meeting is called to order at 5:49pm by Quinn Forner, IFC Chair.

Roll Call

IFC Members: Vikas Sharma, Tori Stutzman, Carter Craig, Rachel Ammons, Jessica Hand, Quinn Forner, and Allison Cook.

Advisors: Darin Silbernagel, Director of Business Services; and Gary Dukes, Vice President for Student Affairs.

Area Heads: See attached list

Other Representatives: See attached list

IFC Secretary: Adela Aguilar

Not Present: Evelyn Garcia and Miguel Sanchez.

2. Approval of the agenda

Jessica Hand moves to approve the agenda. Rachel Ammons seconds. Acclamation is called. Seeing no dissent, the motion passes.

3. Approval of the minutes

Carter Craig moves to approve the minutes. Jessica Hand seconds. Acclamation is called. Seeing no dissent, the motion passes.

4. Reports

5. Old Business

6. New Business

7.1 Open Hearings

Quinn Forner provides a brief breakdown of the IFC preliminary decisions; projected for attendees. Attached is a list of all the attendees who signed in. Below is a snapshot of the attendees.

Abby's House = 4

Access = 1

ASWOU = 7

Veterans – 1

Judicial Board – 1

Students – 1

Athletics = 66

Men's Basketball – 2

Volleyball – 4

- Softball – 13
- Football – 19
- Women’s Basketball – 8
- Volleyball & Track – 1
- Cross country/track – 3
- Women’s Rugby – 3
- Soccer – 5
- Rugby – 2
- Women’s Soccer – 2
- Campus Recreation = 35
 - Men’s lacrosse – 1
 - Women’s Rugby – 13
 - Club Soccer – 5
 - Men’s Rugby – 12
 - Rugby – 1
 - Climbing Wall – 3
- Childcare = 2
- Creative Arts = 33
 - Music – 6
 - Music/Smith Fine Arts – 1
 - Vocal Jazz – 1
 - Theatre – 20
 - Cannon Art Gallery – 1
 - Theatre/Dance – 1
 - The Journal – 1
- Media = 1
- Student Leadership & Activities – 1
- No Department = 9

Following the completion of the speakers list the attendees split into 3 groups for discussion led by two IFC members (per group). Letters of support/e-mails were submitted by students in various departments and are attached.

7. Announcements

Malissa Larson asks the Committee to reconsider the Thursday February 12 meeting. Jessica Hand notes that the meeting’s purpose was to debrief open hearings which could occur on Monday before final decision. Rachel Ammons would like to be part of the debrief meeting and she would miss the Thursday meeting. The Committee reaches a consensus to cancel the February 12 meeting.

Quinn Forner announces that IFC is on the agenda for the Wednesday February 11 ASWOU Senate Meeting. The purpose being to update Senate on the Committee’s decisions as they relate to the IFC process; he encourages members to attend.

8. Adjournment

Allison Cook moves to adjourn. Tori Stutzman seconds. Acclamation is called. Seeing no dissent, meeting adjourns at 8:10pm.

[IFC] Fwd: IFC - CRD wall maintenance

Quinn Forner <qforner12@mail.wou.edu>
To: ifc-list@kraven.wou.edu

Dear Incidental Fee Committee,

I am writing to you today regarding Campus Recreation's climbing wall maintenance enhancement request. This money will allow climbing specialists to maintain quality and safety at the climbing wall. This enhancement for wall maintenance is a wise use of student dollars for a number of reasons - here are a few.

The climbing wall is a big draw for prospective, new and current students. At the new student week event this fall, literally hundreds of people lined up to get to experience the climbing wall, and the rush continued, unabated, for over two hours. The reason that this was possible was because of the number and variety of high-quality climbing routes available.

The Health and Wellness Center is the last stop on the campus tour for a reason - the building's appearance and what it has to offer is attractive to new students. When visitors first enter the building, the climbing wall is one of the impressive parts of the building and is what visitors see when they enter and exit the building. A blank or uninspiring wall is something that will not help out the recruitment of new students (and their future IFC dollars!).

Safety! Maintenance allows not only for quality routes to be set, but for staff to identify and correct safety issues ranging from loose and spinning holds to worn hardware and ropes.

The PE class that runs every term and is incredibly popular (waitlisting by mid-registration week) depends on high-quality routes and their variety. Students should be able to have a rewarding introductory climbing experience.

Finally and most importantly, I ask you to consider where else on campus students must volunteer *just to do their jobs*. Wall maintenance is not optional, or an extra frill. It is a mandatory part of the job. Do we ask library workers to volunteer to re-shelve books? Valsetz workers to wash dishes for free? No, and we shouldn't have to. If someone serves food at Valsetz and is paid, they should also be paid to complete the job and get the dishes in the dishwasher. It is a sound and smart use of student dollars to pay students to make a place for students better.

Thank you,
Zander Albertson

Hello IFC members,

I would like to put my voice in for this coming decision regarding the 2015-2016 school year. My name is Chas Esping and I am a third year transfer here at WOU. I work here on campus at the HWC as a supervisor. I started there as just a Lifeguard and have moved through each position. I am qualified and work almost every job available through Campus Recreation including the Rock Wall, Fitness Instructor, and Aqua Exercise/Swim Lesson instructor.

I would like to give my opinions about the decision that will be made soon. I unfortunately cannot make it in to the meetings because I work in Salem every evening.

First, I really believe that creating a full time position for a Business Officer will substantially help the Health and Wellness Center. As a supervisor I am asked to train new staff, open the gym, set up fitness classes, and other everyday duties. When we are training new staff it takes away time from other tasks that we as supervisors need to perform for the gym to run smoothly. When trying to run the gym and train new staff there are holes that we cannot cover while training them on the 80 different topics that they needs to know. With a full time Business Officer our jobs as Supervisors will not be as stressful while trying to train a new staff member, set up two fitness classes, deal with upset patrons, and supervise the staff that is on shift all at the same time.

Second, the Climbing Wall is a growing asset to the Health and Wellness Center. Throughout my three years going to school here and working as a Climbing Specialist I have seen the climbing community grow immensely. I remember when I first started here the climbing community was very small, and it only included most of the climbing staff. Now when I am working on the wall I notice there are more community members using the wall as well as more students. The climbing wall needs to have some upkeep and maintenance regularly. If this is not done climbing route tape starts falling off walls, holds become dirty, and routes become monotonous. When the holds get dirty they are covered in climbing chalk, skin cells rubbed off of hands, dirt or gross things that come off shoes. These things need to be cleaned. I know for a fact that some of the Climbing Specialists have come in and volunteered their own time to come in and do these things. This is a necessity for us to do on the wall and as a Climbing Specialist I believe we should be getting paid for our work.

I have been reading through the requests from the Clubs, Athletics, Student Media, ASWOU, Creative Arts, Wolf Ride, Childcare, WUC, SLA, and SAB and there are things I really believe that student dollars should be funding and others that should not.

Throughout the Clubs section I noticed errors in spelling, grammar and professionalism. I feel that if Clubs are asking for money, the person writing them should be professional and spell correctly. I urge you to go back through the requests and find these errors and either correct them or not grant them their request.

Athletics is a whole realm of issues. First, about 5.5% of the whole student body here at WOU are student athletes. For them to receive some of these funds they are requesting is a disservice to the other 95% of the student body. There are things that I believe that the students should fund including travel funds, meet entry

fees, funds to pay for officials, new uniforms (to a certain extent), and some equipment.

Football is a big sport and there is a lot of people who like to see Western's team play well. I believe that we (as students) should NOT have to pay for a new Coach Comm System. \$40,000 dollars is an absurd amount and I would not like to see my fees going towards purchasing a new communication system that will not benefit ANY student on campus other than the coaches communicating as well as the players on the field or sideline.

Laptops are needed in almost every sport. According to the Football and Athletic Administration request they have computers that are six to ten years old. They cannot run their programs to view film because of the age of the computers. I personally have a computer that is six years old and since I have updated the operating system I have had no problems running programs or any problems with my computer running slow. I do not see a need in providing new computers that can work perfectly fine. On the other hand, Baseball and Basketball may actually need new computers. According to the request the Baseball team is sharing one laptop for all work related duties. Basketball has requested a new computer to replace a broken one. I have a couple of personal friends on the team as well as the Coaching staff. According to them, they were having to use a coach's personal laptop to watch film and in the process it broke. Now they are having to use players' laptops to watch film. These two teams I believe may benefit from a new computer.

There are also four personnel positions that Athletics is requesting. A Women's Soccer assistant coach should not be paid for by students. Why would our fees support a new assistant coach when only a handful of students benefit from this. I could see the benefit for the other three positions requested. Having a Strength and Conditioning Assistant Coach would help relieve duties from the Head Coach as well as benefit with credit weight training classes. A physician available would be a great idea for those athletes who may be injured or recovering from an injury as well as pre-season physicals. Student interns that would travel from OSU is a great opportunity because it gives a new opportunity for those interns from OSU as well as the athletes that are in training.

There are a couple of things that cause a major safety concern. The Hammer/Discus area and the Baseball practice pitching mounds have caused or could cause major injuries. These need to be taken care of first I believe because of the safety for our athletes as well as the public near the throwing area.

Now I know that there are items that are a necessity but there are many things that are not needed or help the general student population. There are in fact some funds that have been requested that should be granted that a majority of students here at WOU would notice. This includes Wolf Ride getting an ADA accessible van, childcare, WUC replacing items, SLA and their activities for students, and SAB activities. These funds requested should be looked at more in depth to see how it will affect the general population of students that use these things.

I would very much appreciate my voice being heard at the meetings because I cannot attend them because of work.

If you have any questions please e-mail me and I will get back to you as soon as I can.

Thank you,
Chas Esping

I would like to show my support of the IFC's funding for childcare. The monies received from IFC gives WOU students a much needed 30% discount in child care tuition.

We thank you for your past support. We hope that you will continue to provide funding to those of us who have their child enrolled at TRI-CDC so that present and future non-traditional WOU students may have the same 30% discount in their childcare tuition

WOU Student Name *Rolyn Lopez Melton*

Comment:

The CDC provides high quality child care so that students can concentrate on their education. The IFC support makes it affordable and accessible.

Comment:

Without the 30% discount the IFC gives, I fear I wouldn't be a student at WOU. I live in Corvallis and childcare here is too expensive. I love how I can be a successful student, and mother when my son is able to attend the CDC.

Comment:

As a WOU graduate student, student worker, and mother, TRICDC has had a major affect on my family's life. Having both my husband and myself in graduate school at the same time was not an easy choice, and having on-campus childcare with a subsidy was one of the major deciding factors of attending WOU. Being able to drop in and see my son on campus, or just knowing that I do not have to spend time driving to and from campus to pick up my son gives me more time to study and work.

We were also able to utilize TRICDC this summer to provide a consistent and educational childcare for my son. I greatly appreciate what WOU does by not only providing quality childcare, but also by supporting students with children financially so that they can continue their education knowing that their child is in a safe learning environment.

Members of the Incidental Fee Committee
345 N Monmouth Ave.
Monmouth, OR 97361

Dear members of the Incidental Fee Committee,

As student-athletes of Western Oregon University's women's soccer team, we would like to address a specific enhancement that has been requested. This enhancement regards the scoreboard for our soccer field, and we want to provide an explanation for this request.

It should first be noted that our scoreboard is the oldest one on campus. Despite its age, we are not asking to replace our scoreboard; rather, we are asking for a new internal system. Over the past few years, we have experienced several technological difficulties with our scoreboard during soccer games. There have been instances where the scoreboard has frozen, flashed random numbers, or didn't even turn on at all. This caused stress for the athletes, coaches, and the officials. It took extra time and effort to get the system working again when in reality, it should be an expectation to have a functioning scoreboard. This is a simple fix that can ultimately eliminate stress, save time, and compel spectators to leave with a lasting impression of Western Oregon University.

We understand that it is not easy to be on the Incidental Fee Committee, and we know that there are numerous issues to take into consideration. However, we hope that you can consider this specific enhancement. It will specifically benefit the soccer team, while also impacting the athletic department as a whole. Thank you for your time and consideration.

Sincerely,

IFC members:

I am writing this letter in support of the Athletic one-time enhancement request for the football headset communication system. This system allows coaches who are in the press box to have a bird's eye view of the field during football games. It allows the coaches on the field and in the press box to communicate about the opposing team's personnel and formations. In addition, it allows the coach and athletic trainer to accurately communicate about the injury status of our student-athletes. Without this system, our team is at a competitive disadvantage as well as being at greater risk of injuries going undetected by medical personnel.

Thank you for your support of Athletics and please consider this important enhancement. The following WOU students support this enhancement.

IFC Members,

New bumpers and a new treadmill for the weight room is the enhancement that I would like to discuss. Currently there are three treadmills in the weight room: one is completely broken and the other two have been repaired more times than can be counted. A new treadmill would mean that student-athletes and students that utilize the weight room could have access to higher caliber training.

New bumpers would mean a lot of different things. First of all, the bumpers in the weight room are used by not only student-athletes but other students enrolled in strength and conditioning courses. The bumpers currently in the weight room have been used for quite a while and have accumulated quite a bit of wear and tear. The importance of new bumpers would not only mean that we would have new equipment; it would also mean that the Strength and Conditioning program would be able to hold its own fundraisers. Fundraisers would allow the strength and conditioning program to not only get new equipment, but other students on campus would have access to power lifting competitions. The purpose of new bumpers for the power lifting competitions is that these competitions have to be done in Kilos and not pounds for them to be certified.

I have talked to the following students and they are in support of the enhancement.

Thank you for your continued support to the Athletic Department.

IFC Members,

I am here to talk to you about a new net for the hammer/discus ring. The current net being used has been in use for over a decade. The net's purpose is to keep student-athletes, and spectators safe during practice and competition. You might not know this but Western Oregon University holds home meets during the track and field outdoor season. One of those meets is the permanent site for the Great Northwest Athletic Conference Championship meet. This meet hosts all 9 schools in our conference. The net currently in use is soon going into be a safety hazard. This is Oregon and it rains most days of the year. The net is covered in moss and has multiple holes in it.

I have talked to the following students and they are in support of this enhancement.

Thank you for your interest in this enhancement and your continued support to Athletics.

Dear IFC members,

We, the 2014-2015 Western Oregon University Softball team, are writing to you on behalf of our future outfield fence line. Currently we have a metal post lining the top of our chain link fence, running along the outer perimeter of our entire field. We are asking for funding towards padding for our chain link fence that covers the top of our metal posts. The padding required for this addition costs \$4,511. The main reason we ask for this one time enhancement is because it will provide safety for our players and will allow us to compete at the highest of our potential knowing that our facility is qualified for collegiate competition. The fence padding is made to withstand significant amounts of impact in order to protect our players, as well as other competitors from injuries. The fence padding brings sophistication to this program that has been lacking in prior years. We would like to bring this new addition to the field so that not only our athletes benefit from it, but also our student body and community members. Our goal as a softball team, and the Western Oregon Athletic Program as a whole, is to create an environment where people feel welcome and leave our field with a lasting memory knowing that we take pride in the facilities that we have been given and it truly shows. For those who are continuous visitors of WOU campus, primarily to watch softball, the field is the only portion of campus they see. We want our field to represent Western Oregon and make a statement, and the fence padding is one step closer. While we as players work hard to fundraise for enhancements towards our field and program, we would appreciate your financial help to support us as we represent Western Oregon.

Sincerely,

2015 WOU softball team

To IFC Members:

I would like to say thank you for our current funding level. I have been a student-athlete at this university for four years and I am truly thankful for the opportunities that I have been able to earn in my time here. I say earn, because contrary to the beliefs of some, the student-athletes here at WOU are not handed anything. As a senior in cross country, this was the first season that I was provided a full uniform, a racing singlet, and a pair of bottoms. All my other competitive I have only receive a top, and had to purchase my own bottoms as well as shoes to race in. I have also seen the impact of decreased funding in my program as the amount of athletes that get to travel to competitions have continued to be cut, limiting our chances to be successful and represent the university. And representing the university is what we do, when we put our jersey's on it's not to show off, it's to show the thousands of people all of the country, what we stand for at Western Oregon University. As student-athletes here at Western Oregon, we all work our hardest just for the chance to compete, and even then many of us are not allowed the opportunity to. The current service level funding that the Athletic department is asking for need not to be seen as hand-outs, and over the top request, honestly the funds we are asking for are just to allow the department to be able to function at a reasonable level.

By decreasing the Athletic operating budgets by five percent, Western Oregon University will be choosing to limit more opportunities of students. The Incidental Fee funds are supposed to be dispersed in a fashion that provides benefits for the most students possible. But what would happen if the rest of the departments that were asking for any enhancements also got cut five percent? Spanish club, student media, theatre arts, ASWOU, all receive funding from IFC and are allowed to provide opportunities for students on campus, but they wouldn't be functioning without funds from the IFC. The same goes for the Athletic Department.

As mentioned above, in my time here at Western I have seen continual decreases in the opportunities that the student-athletes can earn. Currently, because of our limited budget, student-athletes are denied the chance to represent WOU and compete to better their talent. If our department was to receive a five percent cut, these travel and competitive opportunities would see an even more significant cut. Student-athletes would then have to bus to competition in states as far as way as Montana and Idaho, this would impact the student-athletes overall academic performance by increasing travel time and missed classes.

As students of this university we understand how expensive it is to go to college. However, the requests to fund our current service level for the Athletic Department would just allow the department to afford to keep operating. These request for current service level funding are not frivolous, without them the athletic department will be losing ground on what allows us to stay successful.

I have talked with numerous students on campus about this cut and these students are supportive of a fee increase. Attached is a list of students who support the above statements.

Thank you for your consideration,

Nicole Anderson, Student-Athlete Advisory Committee
