Purpose of request:

The Acapella Club would like to request funds to purchase shirts and performance attire to let the club be represented in public settings - such as fundraising events and other events.

Also, the performing groups within the club would love the opportunity to participate in an annual competition (ICCA's) that requires an application fee - non refundable - and funds to get the group(s) to the location of the competition. *Location for 2017 is TBD.* The competition is a fun way to challenge our abilities to work together as group members and to learn from the experience. It would be performing events like this, that we would need to purchase more professional performance attire.

Attach all applicable documentation including a detailed breakdown of the request.

DO NOT INCLUDE ADMINISTRATIVE OVERHEAD

Approved _____ Denied _____ Amount \$ _____

NOTE:

ASWOU Advisory Board decided that if the full \$350 is not used for two years, the travel account will be moved down to zero.

Incidental Fee Committee FY17 Enhancement Request

Education Club (ASCD Student Chapter)

Total Amount Requested: \$2559

- **\$550 - Speakers for EDvents**

A substantial part of Education Club's mission is providing our members with professional development opportunities. For this reason, our club hosts informational nights (EDvents), during which we have speakers present about various topics relating to the field of education. This provides our members with valuable information that directly applies to our future careers as educators. Despite the fact that these events are hosted by Education Club, there is a great potential for other majors to benefit from certain speakers as well, and for this reason we welcome students from outside of the College of Education to attend. In order to compensate these professionals for their time and part of their travel expenses, we are requesting **\$550 for speakers.**

- **\$50 - Supplies**

Printed flyers are a necessity for advertising and promoting our meetings, EDvents, fundraisers, and community outreach projects. For this reason, we are requesting **\$50 for printing supplies.**

- **\$1,959 - ASCD Annual Conference (registration)**

As an ASCD student chapter, we are invited to participate in the Annual ASCD Conference and Exhibit Show. This experience not only provides us the opportunity to represent WOU's College of Education in a positive way, it also gives us the chance to network with professionals in the field of education as well as other ASCD student chapters from around the country. This experience is invaluable to us as future educators, and it will serve as a resource and inspiration as we have the opportunity to hear what other ASCD Student Chapters have been doing to build up their member base and give back to their local communities.

In previous years, this experience has been limited to officers/board members. This year, we have increased our membership a considerable amount. We are very focused on our mission for inclusion. In an effort to unify our officers and members, we have encouraged more members to attend. However, with the rising cost of registration, we would like to be able to help reduce the cost to members that wish to participate. This school year, we are taking 10 members. For this reason, we are requesting an amount of **\$1,959 for registration expenses.**

* We will be conducting fundraisers throughout the year to help cover the costs of activities and events in addition to any funding received from our budget.
